2021-2022 Registration now open until January 22nd

Course registration for next year is now open! Students learned about registration this morning in Advisory. Registration is important because it is the foundation of your student's high school experience. Registration drives the courses we offer, class size, and the teachers we hire. We cannot guarantee any schedule change requests after registration so it is critical for your student to register thoughtfully and accurately. To ensure that your student registers for the courses they need and want, we ask that you work with your child to complete registration materials by January 22nd. All registration materials are in your student's Schoology "Class of" folder and on the [Counseling and Career Center website](#). If you have further questions, please contact your student's counselor.
